# Mark scheme

for Papers 1 and 2

2009

National curriculum assessments

## Introduction

This booklet includes the mark scheme for paper 1 and paper 2 in both tiers.

### The structure of the mark scheme for tiers 3–6 and 5–7

The mark scheme for each question shows:

- the teaching points from the key stage 3 programme of study
- the marks available for each part of the question
- the total marks available for the question
- the answer or expected answers indicated by an asterisk
- additional guidance to assist markers in making professional judgements.

In the **Accept** column there may be:

- examples of answers which are acceptable, although they do not correspond exactly to the expected answers
- some examples of higher-level answers, which could be given by higher-attaining pupils answering questions on the lower levels in the tier.

In the **Additional Guidance** column there may be:

- examples of answers which are insufficient or not acceptable
- information on the general requirement of the question
- a reminder, in questions involving calculations, that consequential marking may be used
- instructions on action in the event of consequential marking (see p5)
- guidance to markers where pupils have not followed the instructions in the question.

When a question appears in an identical form in both tiers, the answers to the question are given only once in the mark scheme. For clarity, both question numbers are given. The following example, from tier 3–6 paper 1 question 16 and from tier 5–7 paper 1 question 8, illustrates this.

Tier 3–6 5–7	Q No 16 8	Part	Mark	Answer	Accept	Additional Guidance
		a i 2/2n	2	* fewer bacteria  * less acid (is produced)	accept 'bacteria have nowhere to breed' <b>or</b> 'there are no bacteria' <b>or</b> 'bacteria cannot live' accept 'there is no acid' <b>or</b> 'no acid is produced'  accept, for two marks, 'there are less bacteria producing acid'	answers that just repeat or restate the leaflet are insufficient

Brackets indicate part of an answer that is not necessary for it to be creditworthy. In the example, on the opposite page, ‘less acid’ is enough to gain the marks.

In the following example from part a of tiers 3–6 and 5–7 paper 1 question 12/4, an answer giving ‘it has a flagellum’ and ‘it does not have a vacuole’ should be awarded two marks. However, an answer which gives ‘it has a tail to move’ should be given only one mark, as ‘tail’ and ‘it can move’ are equivalent answers.

Part	Mark	Answer	Accept	Additional Guidance
a 2/1b	2	any <b>two</b> from * it has a flagellum <b>or</b> tail to help it move * it does not have a (cell) wall  * it does not have a vacuole * it has a reservoir (for taking in food)	accept ‘can move <b>or</b> swim’ accept ‘it has a tail’ accept ‘it does not have a fixed shape’ <b>or</b> ‘it changes shape’  accept ‘it takes in <b>or</b> eats food’ accept ‘it has has a mouth-like structure’	‘whip’ is insufficient  <i>do not accept</i> ‘it does not have a membrane’ ‘it only has a membrane’ is insufficient  ‘it has a mouth’ is insufficient

Where more than one answer is acceptable, this is indicated in the mark scheme by ‘any one from’ or ‘any two from’. Each possible correct answer is marked with an asterisk. In some cases, alternative answers are indicated by ‘or’.

The additional guidance column shows which answers are insufficient or not acceptable. ‘Do not accept’ answers will negate a mark if given with an otherwise creditworthy answer. From the example above, the answer ‘it doesn’t have a cell wall or membrane’ would not gain a mark. ‘Insufficient’ answers do not provide enough information to be awarded the mark on their own, but can be credited if given with a correct answer. For example ‘its whip helps it to swim’ should be awarded one mark. Insufficient answers can also be irrelevant information.

## Marking

The number of marks available for each part of a question, and the maximum number of marks for the question as a whole, are shown on the question paper. Every part of a question which has been attempted by a pupil should be marked and the mark for each part recorded in the mark box alongside that part. Half marks should not be given in any question.

The total number of marks awarded for all the parts of questions on a double page should be written in the box at the bottom of the right-hand page. In some instances, this will be the sum of marks awarded for two questions. The total number of marks obtained on the paper can be recorded on the front of the test paper.

The total number of marks available is 180 in tier 3–6 and 150 in tier 5–7.

## Using professional judgement in marking

The instructions given in the mark scheme will enable you to decide whether pupils have correctly answered a particular question. However, there will be instances where an answer given by a pupil does not correspond to any of the possible responses shown in the mark scheme. In such cases, you should apply your professional judgement to decide if credit should be given. You should consider whether the response:

- is equivalent to those listed
- conveys the ideas underlying the question as outlined in the statement in **bold type** in the mark scheme, if one is given.

## Marking misspellings of words

If a pupil misspells a word, you should apply the following procedures:

- if it is clear that the pupil has made a simple error, eg ‘tow’ for ‘two’ or ‘Son’ for ‘Sun’, then the incorrect spelling should be accepted and the mark awarded
- if a pupil misspells a word copied from the text of the question or from a selection given, and the new word does not have any inappropriate meaning, the incorrect spelling should be accepted and the mark awarded
- if specific scientific vocabulary is required in the answer, a misspelling must, in order to be creditworthy, be a phonetic equivalent of the required word, with the major syllables of the correct word represented in the answer.

### Marking lists of alternative answers

In some instances, pupils give more than one answer to a single question. If any of the answers given is incorrect, the mark should not be awarded, irrespective of the order in which the answers are given. In some cases, a correct answer is given alongside other answers which, while correct, would be insufficient for the mark. In these cases, the mark should be given for the correct answer.

### Marking questions containing calculations

Some questions require pupils to perform calculations. Where two marks are available, they are advised to show their working. Pupils who do not show their working but give the correct answer should be awarded full marks.

The result of one calculation may be required in order to carry out further calculations. In such instances:

- the term ‘consequential marking’ appears in the **Additional Guidance**
- a pupil’s result for the first calculation should be treated as the starting point for the second
- the pupil should be awarded full credit for the second calculation if it is carried out correctly, even if the result of the first calculation was wrong.

### Marking answers given in the wrong place

In some cases, pupils may write correct answers in the wrong part of the question. You should use professional judgement to decide whether a pupil has correctly understood the question and simply written the answer in the wrong place. Similarly, if pupils identify an answer by a cross or other indication when a tick is required, they should be given credit for their responses.

### Awarding levels

Level threshold tables, which show the mark ranges for the award of different levels, will be available on the NAA website [www.naa.org.uk/tests](http://www.naa.org.uk/tests) from April 2009.

The requirements of the introduction to the programme of study apply across Sc1, Sc2, Sc3 and Sc4.

The mark allocation grids on this pair of pages show the context of these questions in relation to Sc1, Sc2, Sc3 and Sc4.

Breadth of Study allocations are counted as Sc1 for the purposes of this table.

**[Blank page]**

Tier 3–6	Q No 1			
Part	Mark	Answer	Accept	Additional Guidance
<b>a i</b> 3/1a	1	* <i>from a solid to a liquid</i>		<b>both</b> answers are required for the mark answers must be in the correct order
<b>a ii</b> 3/1a	1	any <b>one</b> from * his nose is hot <b>or</b> hotter  * the ground is colder	accept 'his nose is warm' accept 'his body (heat) melts the snow' accept 'heat' accept 'body temperature'	'the temperature is different' is insufficient
<b>a iii</b> 3/2a	1	* yes no no		<b>all three</b> answers are required for the mark answers must be in the correct order
<b>b i</b> 4/2b	1	* ↓	accept a downward arrow anywhere on or near the diagram	<i>do not accept</i> a response where the arrow is at a right angle to the board
<b>b ii</b> 4/2d	1	* friction		'air resistance' <b>or</b> 'drag' is insufficient 'pushing force' is insufficient
<b>Total</b>	<b>5</b>			

Tier 3–6	Q No 2	Answer	Accept	Additional Guidance
<b>a i</b> 1/2k 2/4b	1	any <b>one</b> from * the snail has a shell * the slug does not have a shell	accept 'the shell' accept 'patch on back'	references to size are insufficient
<b>a ii</b> 1/2k 2/4b	1	any <b>one</b> from * antennae * stalked eyes * shape of body	accept 'tentacles <b>or</b> feelers <b>or</b> horns'  accept 'mouth' accept 'no legs' accept 'no internal skeleton' accept 'they both produce mucus <b>or</b> are slimy <b>or</b> have a wet body' accept 'they have a muscular foot' accept 'slither along'	references to size are insufficient
<b>b</b> 1/2m 4/2d	1	* mucus reduces friction ✓		if more than one box is ticked, award no mark

Tier 3–6	Q No 2			
Part	Mark	Answer	Accept	Additional Guidance
c 2/5e	2	<p>*</p>  <pre> graph LR     plants[plants] --&gt; snails[snails]     snails --&gt; thrushes[thrushes]     snails --&gt; blackbirds[blackbirds]             </pre>	<p>accept, for two marks, other arrangements of arrows that are correct, e.g.</p>  <pre> graph LR     plants[plants] --&gt; snail[snail]     snail --&gt; thrush[thrush]     snail --&gt; blackbird[blackbird]             </pre> <p>accept, for one mark</p>  <pre> graph LR     A[ ] --&gt; B[ ]     B --&gt; C[ ]     B --&gt; D[ ]             </pre> <p>accept, for one mark</p>  <pre> graph LR     plants[plants] --&gt; snail[snail]     snail --&gt; thrush[thrush]     snail --&gt; blackbird[blackbird]             </pre>	<p>'thrushes' and 'blackbirds' may be in either order award one mark for the organisms in the correct place award one mark for the arrows showing the correct energy flow through the food web all <b>three</b> arrows are required for the mark</p>
d 2/4a	1	<p>any <b>one</b> from</p> <ul style="list-style-type: none"> <li>* they are camouflaged</li> <li>* they blend into their background</li> </ul>	<p>accept 'they are harder to see'</p> <p>accept 'birds or predators cannot see them'</p>	<p>'it is easier for them to hide' is insufficient 'fewer will be eaten' is insufficient as it does not refer to protection 'they are disguised' is insufficient</p>

a 4/1d 3/1d	1			* iron		
	1			* nothing happens  copper	accept 'nothing' <b>or</b> 'no force' <b>or</b> 'it does not attract or repel'	<b>both</b> answers are required for the mark
	1			* repel a magnet	accept 'move apart'	<b>both</b> answers are required for the mark <i>do not</i> accept 'magnetic'
b 4/1f	2			any <b>two</b> from * more turns in the coil * increase the current <b>or</b> voltage  * coils closer together	accept 'more coils' accept 'increase power' accept 'add more cells <b>or</b> batteries' accept 'use thicker wire' accept 'make the coils tighter'	'use another battery' is insufficient 'use more wire' is insufficient 'use less wire' is insufficient 'make the wire tighter' is insufficient  references to the iron rod are insufficient
<b>Total</b>	<b>5</b>					

Tier 3–6 5–7	Q No 13 6	Part	Mark	Answer	Accept	Additional Guidance
		<b>a</b> 1/1b	1	any <b>one</b> from * there is a colour change * a new metal is formed	accept 'it goes green <b>or</b> orange' accept 'the iron filings change colour'	'the colour' is insufficient
		<b>b i</b> 3/3b	1	* copper	accept 'Cu'	
		<b>b ii</b> 3/3b	1	* iron sulphate	accept 'FeSO <sub>4</sub> '	
		<b>b iii</b> 3/3b	1	* no ✓ any <b>one</b> from * iron is more reactive than copper * copper is less reactive than iron	accept 'iron is higher on the reactivity series' accept 'copper does not displace iron'	<b>both</b> an indication that the reaction does not happen and the explanation are required for the mark
		<b>c</b> 3/3c 1/2c	1	* calcium ✓ potassium ✓		if more than two boxes are ticked, award no mark <b>both</b> answers are required for the mark
		<b>Total</b>	<b>5</b>			

Tier 3–6 5–7	Q No 14 7	Part	Mark	Answer	Accept	Additional Guidance
		<b>a i</b> 4/4b 1/2j	1	* it orbits the Sun	accept 'it goes round the Sun'	'it has an orbit' is insufficient
		<b>a ii</b> 4/4b 1/2j	1	any <b>one</b> from * it is not in the same plane as the other planets * the orbit is out of line <b>or</b> at a different angle	accept 'it is not in line with the others' accept 'the orbit <b>or</b> it is tilted'	'it has a different orbit' is insufficient <i>do not accept</i> 'it is too small' as this is not shown in the diagram
		<b>b</b> 1/1a 1/2j	1	any <b>one</b> from * it has the smallest diameter * all the other planets are bigger	accept 'it is too small'	'it is very small' is insufficient
		<b>c</b> 4/4b	1	any <b>one</b> from * Charon is a moon <b>or</b> satellite * other planets have moons	accept 'it is a moon' accept 'the Earth <b>or</b> Saturn has a moon' accept 'moons do not orbit other moons' accept 'other planets have objects orbiting them'	'Charon orbits Pluto' is insufficient
		<b>d</b> 1/1a 1/2l	1	any <b>one</b> from * both planets and moons have atmospheres * whether or not it has an atmosphere does not make it a planet * there is no pattern in the atmospheres * some planets do not have atmospheres	accept 'Venus has an atmosphere and Mercury does not' accept 'Earth's moon does not have an atmosphere and Titan does' accept 'Titan has an atmosphere and so does Neptune'	

Tier	Q No			
3–6	14			
5–7	7			
Part	Mark	Answer	Accept	Additional Guidance
e 1/1c 1/2l	1	any <b>one</b> from * scientists cannot decide on what a planet is * if Pluto is a planet there could be more planets orbiting our Sun <b>or</b> in our solar system * there is evidence for and against Pluto being a planet	accept specific arguments for and against e.g. 'it goes around the Sun but it is too small'	'there are reasons for and against' is insufficient 'it has an atmosphere like the Moon but orbits the Sun' is insufficient as atmosphere is not sufficient to classify moons or planets
<b>Total</b>	<b>6</b>			

Tier 3–6 5–7	Q No 15 8			
Part	Mark	Answer	Accept	Additional Guidance
<b>a</b> 1/2o 1/2j	2	<p><i>True False Cannot tell</i></p> <p>* <input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/></p> <p><input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/></p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/></p> <p><input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/></p>		all <b>four</b> ticks are required for two marks any <b>two</b> or <b>three</b> correct ticks are required for one mark if more than one box is ticked in any row, do not give credit for that row
<b>b i</b> 1/2e	1	<p>any <b>one</b> from</p> <p>* there are a large number of observations</p> <p>* the observations are made over a wide area</p>	<p>accept 'lots of people made observations'</p> <p>accept 'people see them in a lot of different places'</p> <p>accept 'you do not have to pay them'</p> <p>accept 'it makes it more reliable'</p> <p>accept 'people knew where to look for conkers'</p>	
<b>b ii</b> 1/2e	1	<p>any <b>one</b> from</p> <p>* they are not spread uniformly over the country</p> <p>* the data is not representative of the conker tree population</p> <p>* the people may not know what a (ripe) conker looks like <b>or</b> whether a conker is ripe</p> <p>* the results may not be very reliable</p>	<p>accept 'they could count the same conker twice'</p> <p>accept 'people can make it up'</p> <p>accept 'people may not respond'</p>	if the response 'it makes it more reliable' is given in bi, do not credit 'it is less reliable' in bii unless they describe how it is more and less reliable
<b>c</b> 1/1a 1/2p	1	<p>* they would need to collect data each year <b>or</b> for more than one year</p>	accept 'repeat each year'	'repeat it' is insufficient

Tier	Q No			
3–6	15			
5–7	8			
Part	Mark	Answer	Accept	Additional Guidance
<b>d</b> <i>1/2m</i>	1	any <b>one</b> from * it is warmer * there is more energy from the Sun	accept 'it is cooler in the north' accept 'the Sun is brighter'  accept 'they flower earlier'	'there is better weather in the south' is insufficient 'it is nearer the equator' is insufficient 'there is more sun' is insufficient as there are more hours of daylight in the north in summer  'they ripen faster' is insufficient
<b>Total</b>	<b>6</b>			

Tier 5–7	Q No 9	Answer	Accept	Additional Guidance
<b>a i</b> 1/2k	1	* a number from 8.0 to 8.2 s (inclusive)		
<b>a ii</b> 1/2k	1	* a number from 34 to 36 m (inclusive)		
<b>a iii</b> 1/2k	1	* 4 s	accept response in the range 3.7–4.3	
<b>b</b> 1/2j	1	* the slope or gradient is constant	accept 'it is a straight line' accept 'steady increase'	<i>do not accept</i> 'the line is flat'
<b>c i</b> 1/2i	1	* points (0, 0) and (15, 30) joined by a straight line	accept points drawn to $\pm 1$ mm	
<b>c ii</b> 1/2k 4/2a	1	* 50	accept ' $\frac{100}{2}$ '	
<b>Total</b>	<b>6</b>			

Tier 5–7	Q No 10			
Part	Mark	Answer	Accept	Additional Guidance
a 4/3d	1	* refraction <b>or</b> refracting		
b 4/3d	2	* a ray bending towards the normal at the first surface  * an emerging ray bending away from the normal at the second surface	accept a ray that is within the shaded area  accept an emerging ray that is within the shaded area	<b>both</b> sections of the ray must be straight and continuous ignore any arrows the emergent ray does not have to be parallel to the incident ray
c 4/3d	2	* a continuous straight line for ray D  * a continuous ray F that bends away from the normal	accept a ray drawn within the shaded area	ignore any arrows ignore any reflected rays do <b>not</b> accept an emergent ray that does not refract
Total	5			

Tier 5–7	Q No 11			
Part	Mark	Answer	Accept	Additional Guidance
<b>a</b> 2/2h	1	any <b>one</b> from * the placenta provides <b>or</b> passes oxygen <b>or</b> food <b>or</b> gets rid of waste * the foetus needs oxygen <b>or</b> food <b>or</b> to remove waste		accept responses that refer to a baby rather than a foetus 'the foetus needs blood from the placenta' is insufficient
	1	* as the foetus develops it needs more (food <b>or</b> oxygen from the placenta)	accept, for two marks, 'the placenta provides <b>more</b> oxygen <b>or</b> food <b>or</b> waste removal' accept, for two marks, 'the foetus needs <b>more</b> oxygen <b>or</b> food <b>or</b> waste removed as it grows'	'it needs <b>or</b> provides more oxygen' is insufficient as the meaning is ambiguous  a two mark answer must include one of the first two marking points and a reference to the foetus needing <b>more</b> food or oxygen from the placenta
<b>b</b> 2/2a	1	any <b>one</b> from * the number <b>or</b> mass of red blood cells increases * iron is needed for the formation of red blood cells	accept 'they need (to make) more red blood cells' accept 'for haemoglobin'	'the mass of blood increases' is insufficient 'the number of blood cells increases' is insufficient 'for red blood cells' is insufficient
<b>c</b> 2/2h	1	* placenta amniotic fluid		<b>both</b> answers are required for the mark 'umbilical cord' is insufficient answers may be in either order

Tier 5–7	Q No 11	Answer	Accept	Additional Guidance
<b>d i</b> 2/2h 2/2l	2	* windpipe lungs <i>mother's red blood cells</i> * placenta umbilical cord blood of foetus	accept 'umbilical' <b>or</b> 'cord' accept 'umbilical cord' and 'blood of foetus' in either order	all <b>five</b> answers are required for two marks award a mark for 'windpipe' and 'lungs' in the first places in the correct order award a mark for 'placenta', 'umbilical cord' and 'blood of foetus' in the last three places in an appropriate order
<b>d ii</b> 2/2h 2/2j	1	any <b>one</b> from * less oxygen passes through the placenta * less oxygen in the foetus' blood * smaller <b>or</b> brain damaged foetus * baby may be premature	accept 'the foetus' heart beat rises' <b>or</b> 'the foetus' blood pressure goes up' accept 'less oxygen in the mother's blood' accept 'less oxygen for the foetus'  accept 'the red blood cells of the foetus will contain carbon monoxide'	accept responses that refer to a baby rather than a foetus <i>do not accept</i> 'no oxygen'  <i>do not accept</i> 'only carbon monoxide passes through the placenta' 'it passes to the foetus' blood' is insufficient 'it poisons the foetus' is insufficient
<b>Total</b>	<b>7</b>
