Box Plots

1. Students in year seven Calverton high school took part in English exams. The boy’s results are summarised below.
   The lowest mark was 12
   The highest mark was 55
   The median was 32
   The upper quartile was 41
   The interquartile range was 22

   a. On the grid below, draw a box plot to represent this information.

   (2 Marks)

The box plot below shows the girls results in the same exams.

b. Compare the distribution of results for the Boys and girls.
2. Tom kept a record of the amount of time birds spend in his garden over the past year. The table below shows the information about the amount of time robins spent in his garden over that period.

<table>
<thead>
<tr>
<th>Minutes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Least amount of time</td>
</tr>
<tr>
<td>Range</td>
</tr>
<tr>
<td>Median</td>
</tr>
<tr>
<td>Lower quartile</td>
</tr>
<tr>
<td>Upper quartile</td>
</tr>
</tbody>
</table>

a. On the grid below, draw a boxplot to represent this information.

(2 Marks)
The box plot below shows information about the amount of time spent in the garden by Sparrows.

b. Compare the distribution of time spent in the garden by Robins and sparrows.
