

Long Division

Please write clearly in block capitals

Forename:

Surname:

Materials

For this paper you must have:

- mathematical instruments

You must **not** use a calculator.

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

Advice

- In all calculations, show clearly how you work out your answer.

- 1(a)** Using long division, solve for $455 \div 7$
Include remainders where appropriate.

(Level 3)

Show your working above.

[2 marks]

Answer _____

- 1(b)** Using long division, solve for $654 \div 6$
Include remainders where appropriate.

Show your working above.

[2 marks]

Answer _____

Turn over for next question

2 A student is trying to solve the following question: $573 \div 18$.

(Level 3)

Their working is shown below

$$\begin{array}{r}
 301 \text{ r}15 \\
 18 \overline{) 573} \\
 \underline{540} \\
 33 \\
 \underline{0} \\
 33 \\
 \underline{18} \\
 15
 \end{array}$$

The student has made a mistake in their working.

Identify the mistake and provide the correct answer including the remainder.

[3 marks]

Answer _____
