

Simultaneous Equations (Linear)

Please write clearly in block capitals

Forename:

Surname:

Materials

For this paper you must have:

- mathematical instruments

You **can** use a calculator.

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

Advice

- In all calculations, show clearly how you work out your answer.

1(a) Solve the simultaneous equations below.

(Level 5)

$$6x + 3y = 12$$

$$2x + 6y = 14$$

[3 marks]

$$x = \underline{\hspace{10em}}$$

$$y = \underline{\hspace{10em}}$$

1(b) Solve the simultaneous equations below.

$$2x - 5y = 16$$

$$3x + 2y = 5$$

[3 marks]

$$x = \underline{\hspace{10em}}$$

$$y = \underline{\hspace{10em}}$$

Turn over for next question

2(a) Solve the simultaneous equations below.

(Level 5)

$$2x + 4y = 14$$

$$4x - 4y = 4$$

[3 marks]

$$x = \underline{\hspace{10em}}$$

$$y = \underline{\hspace{10em}}$$

2(b) Solve the simultaneous equations below.

$$3x - y = 23$$

$$2x + 3y = 8$$

[3 marks]

$$x = \underline{\hspace{10em}}$$

$$y = \underline{\hspace{10em}}$$

3

Two different families pay for entry into a water park.

(Level 5)

Family 1 has 2 adults and 3 children and costs a total of £20 to enter the park.

Family 2 has 1 adult and 4 children and costs a total of £15 to enter the park.

Work out the cost of the adult ticket, and the child ticket.

[4 marks]

Adult ticket = _____

Child ticket = _____

MathsMadeEasy Revision App

- ✓ Video revision for every GCSE Maths topic
- ✓ Thousands of practice questions
- ✓ Online Mock Exams with video solutions

Try it now at mme.la/app or scan the barcode

4 Sophie is selling student and parent tickets for a school performance.

(Level 5)

On night one, she sells 50 student tickets and 80 parent tickets and makes £340.

On night two, she sells 25 student tickets and 50 parent tickets and makes £200.

What is the cost for 1 student ticket and the cost for 1 parent ticket?

[4 marks]

Price of student ticket = £ _____

Price of parent ticket = £ _____

GCSE Maths Revision Cards

- ✓ All major GCSE maths topics covered
- ✓ Higher and foundation
- ✓ All exam boards - AQA, OCR, Edexcel, WJEC

Get them at mme.la/cards or scan the barcode

5(a) Solve the simultaneous equations below.

(Level 5)

$$4x + 8y = -4$$

$$2y - 5x = 23$$

[3 marks]

$$x = \underline{\hspace{10em}}$$

$$y = \underline{\hspace{10em}}$$

5(b) Write down the coordinates for the point of intersection for the lines below.

$$4x + 8y = -4$$

$$2y - 5x = 23$$

[1 mark]

Point of Intersection = (,)

GCSE Maths Practice Exam Papers

- ✓ GCSE Maths predicted papers and mark schemes
- ✓ Paper 1, 2, 3 and mark scheme in every set
- ✓ All exam boards - AQA, OCR, Edexcel, WJEC

Get them at mme.la/papers or scan the barcode

6 Andrew goes to the shop to buy some apples and bananas. (Level 6)

He goes to purchase 5 apples and 4 bananas, and the total comes to £5.70.

Unfortunately, he doesn't have enough money, so he puts back 1 apple and 2 bananas.

The new total is £3.60. What is the cost of 1 apple and the cost of 1 banana?

[3 marks]

Price of apple = £ _____

Price of banana = £ _____

Turn over for next question

7 Two simultaneous equations are given below, where p and q are constants. (Level 6)

$$3x - py = 4$$

$$4x - 3y + q = 0$$

The solution to these equations is $x = 1, y = 2$.

Find the value of p and q .

[4 marks]

Answer _____

Turn over for next question

8

Examine the rectangle below:

(Level 6)

8(a)

The area of the rectangle is 88cm^2 .What is the value of a ?

[1 mark]

$a =$ _____ cm

8(b)

Using the information from the diagram, what is the value of x and y ?

[3 marks]

$x =$ _____

$y =$ _____
